

Transparency & management of the replacement parts process... **in an instant** - Go **Global InPart**

Global InPart is a dedicated parts ordering platform connecting Parts Sellers with approved Workshops in real-time

How Global InPart will help you, the Insurer

Drive higher levels of customer satisfaction
Global InPart delivers accuracy, predictability and reliability into the ordering process cutting down Key to Key times and enhancing customer satisfaction levels.

Parts transparency and traceability within your repair network
Global InPart issues a Certificate of Part Acquisition confirming which parts were

purchased to be fitted to a vehicle giving traceability at all times.

A cognitive solution providing the catalyst for change
Analysing and acting upon the trading data aggregated within Global InPart gives a cognitive solution to make well informed decisions.

Great features designed to work for you

One centralised data pool
Traditionally only available from disparate sources and complex to aggregate. Trading data is captured by Global InPart and held in a central data pool available for analysis and reporting.

Real Time Integration
Enquiries and orders are made in real-time

between the Workshops and Part Sellers ensuring that stock and prices are current and accurate.

Certificate of Parts Acquisition
Parts ordered by Global InPart are issued a Certificate of Parts Acquisition validating the order to the vehicle.
