

Make it quick & easy for your customers to order from you... **in an instant** - Go **Global InPart**

Global InPart is a dedicated parts ordering platform connecting Parts Sellers with their Workshop customers in real-time

### How Global InPart will help your Parts business

#### Quick and easy for your customers to buy parts from you

No more telephone queues or emails. Your customer can enquire and place orders with you electronically, in an instant.

#### Global InPart will save Part Sellers money

With orders being placed electronically, the cost of taking and processing orders is cut by up to 80%.

#### Cuts the levels of stock returns

More accurate parts information, together with no requirement for re-keying or manual inputting and so removing errors that lead to stock returns.

### Great features designed to work for you

#### Integrates with your existing business system

No additional or special hardware required, just an internet connection and you can start to receive orders instantly.

#### Messaging and Graphics

Your customer can share images of the parts they require to ensure accuracy as well as adding messages to their enquiries and orders.

#### Access to the Global InPart connected community

Being on Global InPart ensures you are accessible to new as well as existing customers who want to order parts.

### Enquiries
